

CERTIFIED ISO/IEC 31000 RISK MANAGER TRAINING AND CERTIFICATION

WISELEARNER

WHAT IS RISK MANAGER?

- Risk is an uncertain event that may have a positive or negative impact on the project. Risk Management is the process of identifying and migrating risk.
- Organizations that manage risks effectively are more likely to protect themselves and succeed in growing their business.
- The challenge for any business is to integrate good practice into their day-to-day operations and apply it to the wider aspects of their organizational practice.

BENEFIT OF RISK MANAGER

- Improve operational efficiency and governance
- Increase stakeholder confidence in your risk management techniques.
- Strengthen operational controls, including mandatory and voluntary reporting
- Improve your business performance, crisis management and organisational resilience
- Respond to change effectively and protect your business as you grow

LEARNING OBJECTIVES

- Understand the fundamental concepts and processes of Risk Management
- Acknowledge the correlation between ISO 31000, IEC/ISO 31010 and other standards and regulatory frameworks
- Comprehend the approaches, methods and techniques used to manage risk within an organization
- Learn how to interpret the principles and guidelines of ISO 31000

Office: +91 40 42603339 | info@wiselearner.com | www.wiselearner.com
